github.com/Karthik6381 Tindivanam, India

Professional Summary

B.Tech Information Technology student (2022–2026) specializing in full-stack development, with expertise in building responsive web and mobile applications. Skilled in React.js, Node.js, Express.js, MySQL, and MongoDB, with hands-on experience developing scalable, secure, and user-friendly solutions. Strong problem-solving skills, collaborative mindset, and a passion for delivering high-quality, efficient software.

Education

- B.Tech in Information Technology** 2022 – 2026
Mailam Engineering College, Mailam (CGPA: 8.3)

Projects

- AI Resume Builder App (AFD Final Project)**
Developed an AI-powered web application that helps users create professional resumes by entering structured details. The system generates well-formatted resume content with smart suggestions and provides a real-time preview experience. It improves resume quality while reducing manual effort and enables easy export in a professional format. *Tech Stack: React.js, Tailwind CSS, OpenAI API*
- AI Website Builder using PERN Stack (Personal Project)**
Built a full-stack AI-based platform that allows users to generate website layouts and content through simple input prompts. The application dynamically creates editable web pages and provides real-time preview using AI-driven logic. It demonstrates the integration of frontend, backend, and database systems to automate website creation. *Tech Stack: PostgreSQL, Express.js, React.js, Node.js, OpenAI API*

Internships

- Frontend Developer Intern** Jul – Aug 2025
Cognifyz Technologies
 - Optimized UI performance, built reusable web components, and integrated APIs for dynamic content.
- Java Full Stack Intern** Jan – Mar 2025
EduSkills
 - Developed full-stack Java web applications using Spring Boot and MySQL.
 - Implemented authentication, CRUD operations, and scalable database integrations.

Skills

- Programming:** Java, JavaScript
- Web Development:** HTML5, CSS3, React.js, Node.js, Express.js
- Tools:** Git, GitHub, Jenkins, Linux, Docker
- Databases:** MySQL, MongoDB
- Other Skills:** Problem-Solving, Debugging, Team Collaboration

Certifications

- HTML5 Application Development – Certipoint / Pearson VUE, Nov 2024
- DevOps Course – VGLUG Foundation

Achievements

- Participated in Internal Blockchain Hackathon and built a prototype.
- Selected for CARE Hackathon 2025 (March 14–15).
- Attended International Conference on Emerging Technology Innovations.
- Completed Cognifyz Technologies Internship (web development, optimization).
